Providing value added solutions / service to customers

US based coffee innovation and R&D

Attractive **ofi** propositions multi category participation

Our range of instant coffee products

Spray-Dried

It is obtained by evaporating water from concentrated Coffee Extract and spraying the concentrated coffee in a drying tower, thus getting the coffee particles.

- SD available blends: 100% Robusta; Mixes Arabica/Robusta
- Cold Soluble: 100% Robusta, 100% Arabica, Arabica/Robusta Blend
- Single Origin Arabicas: Colombian, Guatemalan, Congo, Indonesian
- Decaffeinated spray dried coffee Arabica/Robusta.
- SD Certified coffee: RFA.

Agglomerated

It is obtained through a process in which the particles of spray are increased by powder wetting, improving solubility at the same time.

- AG available blends: 100% Robusta; Mixes Arabica/Robusta
- Decaffeinated agglomerated coffee Arabica/Robusta.
- AG Certified coffee: RFA.

Freeze-Dried

It is obtained by freezing Coffee Extract at very cold temperature, thus avoiding the loss of aromas and keeping attributes that are highly valued. The basic principle of freeze drying is the removal of water by sublimation.

- FD available blends: 100% Robusta; Mixes Arabica/Robusta & 100% Arabica
- FD Decaffeinated coffee Arabica/Robusta
- FD Certified coffee: RFA, Fairtrade, Organic.
- FD Single Origin coffee blends: Colombia, Costa Rica.
